Professional Summary

Experienced Software Engineer with 7+ years of expertise in building scalable, high-performance web and mobile applications. Specialized in React JS, React Native, and Redux, with a solid foundation in JavaScript (ES6+), HTML5, and CSS3. Proven ability to lead product development from concept to deployment, optimize performance, and collaborate in Agile environments. Strong problem-solving mindset with a focus on clean, maintainable code.

Professional Experience

Senior Software Engineer

Evolving Systems Network India Pvt Ltd | Bangalore

Aug 2021 – Present

- Designed and developed responsive web/mobile apps using React JS and React Native.
- Led the development and optimization of both web and mobile apps using React JS and React Native, significantly enhancing user experience and performance.
- Built reusable and modular components, increasing development efficiency by 30%
- Developed the Subscriber Welcome Portal and Unified UI — centralizing user data and streamlining SIM activation workflows.
- Integrated REST APIs, improved app performance, and managed data flow using Redux and Hooks.
- Actively participated in Agile development processes including sprint planning, code reviews, and CI/CD pipeline enhancements.
- Gained strong experience in end-to-end product development and cross-team collaboration.

Key Projects:

- **TNM (Telephone Number Management):** Enabled telecom operators to efficiently manage the complete SIM and number lifecycle, from procurement to recycling.
- **SWP (Subscriber Welcome Portal):** Simplified SIM activation via an intuitive interface, automated user data validation, and ensured privacy compliance.

- **Unified UI:** Centralized user interface with multiple instances and secure, segregated data storage for enhanced usability and secure navigation.
- **Evolution UI (Angular → React Migration):**
 - a. Migrated the legacy Evolution Application & User Management (AUM) system from Angular to React.
 - b. Rebuilt modules for user management, workgroups, app permissions, auditing, and system settings using a modern, component-driven architecture.
 - c. Implemented secure role-based access control and enhanced interoperability with the Evolution modular platform.
 - d. Improved maintainability, performance, and usability while ensuring full functional parity with the previous Angular application.

Software Engineer

Sigma Infosolutions Ltd | Bangalore

Dec 2018 – Aug 2021

- Developed dynamic UI components and integrated REST APIs using React JS, Redux, HTML, and CSS for both web and mobile platforms.
- Collaborated within a 40+ member cross-functional team, contributing to major client projects.
- Integrated third-party tools like Google Maps API, Syncfusion, and improved application workflows.
- Worked extensively on third-party integrations including Google Maps API and Syncfusion for enhanced functionality.
- Delivered clean, maintainable code and ensured smooth backend integration to improve user interactions and system scalability.

Key Projects:

- **Primerates:** A loan pre-qualification platform offering users personalized financial services via a simple, fast onboarding process.
- **Unibiz:** Web-based solution for rental, sales, service, and labor management in AV and construction industries — built using a microservices architecture.
- **Algopay:** A secure digital wallet platform enabling safe online transactions for unbanked populations across the Middle East.
- **Lee Pro:** Real estate listing platform for managing, selling, and leasing properties through agent engagement.

Core Skills

- Front-End: React JS, React Native, Redux, JavaScript (ES6+), HTML5, CSS3, Bootstrap
- Tools & Platforms: Git, GitHub, Bitbucket, Postman, Axios, JIRA, Visual Studio
- APIs: REST API Integration, Google APIs, Syncfusion
- Development Methodologies: Agile, Scrum
- Soft Skills: Problem Solving, Communication, Team Collaboration, Adaptability, Attention to Detail

Education

Babu Banarasi Das Northern India Institute of Technology (AKTU)

Bachelor of technology in Computer Science

Lucknow, Uttar Pradesh | Jul 2014 – Jun 2018

Percentage: 67.08%

Interpersonal Skills

- Strong analytical and problem-solving abilities
- Excellent communicator and collaborator
- Fast learner, quick to adapt to new tech
- Detail-oriented and committed to code quality
- Team player with leadership capabilities

Languages

- English
- Hindi
